Second Urgent Demand for Investigation & Criminal Prosecution

Of All Judges in Ventura County's Superior Court for

obstruction of justice and for using our court

too advance their racketeering enterprises.

AUGUST 20, 2002

Dear Mr. Lockner

On July 21, 2003, I filled with your office a formal complaint. Regarding the manifest corruption of our legal system and demanding that you bring to justice, arrest and prosecute the judges in Ventura County. Who have betrayed their trust and have turned our courts from temples of justice in racketeering enterprises.

Where the most dangerous and deadly predators in our society who are members of our legal establishment judges and lawyers. Who are acting under cover of law and the peoples authority. Who have so damaged our legal system that it is on the danger of a complete credibility collapse.

These judges all of which are lawyers most of which were previous prosecutors. Who have betrayed the trust of the American people, who twist justice by lying about facts and law. They refuse to follow the higher moral law, will not follow the constitutional commands. They refuse to follow controlling case law, legislative intent, California court rules & procedure or even their own local rules.

When these judges get caught red handed in these evils by citizens lawyers. They refuse make any ruling or deny the case ever existed. They deny the motions without giving any lawful grounds, points or authority's. They do this to prevent the public, higher courts or the legislatures to see what they are doing. They act as though they think they are gods above all law and us mere mortals.

These evil doers flaunt the law with impunity and have been protected in their evil doings by a conspiracy of silence. By the other judges, lawyers and fellow members of the legal establishment. The indisputable fact is that in our legal system today. Those with money can get away with, murder, rape and robbery.

While the poor and average are abandoned by their lawyers. Their property stolen, children illegally taken, lives ruined, business destroyed, falsely charged, convicted and imprisoned While our rule of law turned into the rule of lies by these lawyers and judges.

Your office has been informed of this type of corruption in the past and refused to take any action to correct this evil. Which like a militant cancer is spreading throughout our entire state. In the past your office has shirked its responsibility by refusing to conduct meaningful investigations. Or by referring complaints to the commission on judicial performance. Which you know is a sham. Part an parcel with this same evil. It is just a front organization that acts to a coverup for these judges and their crimes.

The evils of these judges and their co-conspirators and not just *high crimes* it is also *high treason*. As they are destroying our democratic form of government and spreading violence throughout our entire society. **Their evils are a clear and present danger! To the lives liberty and property of all in this state.**

In fact this corruption is so widespread and has that it has been a custom in California's courts. For at least twenty-five years. Which is growing worse with each passing day. It is so widespread that it might now require a complete federal takeover. Of our courts to insure justice for the people and to protect us from these deadly predators.

We feel that the cleaning up of our legal system and the purifying our courts. Should be the most important issue in the California governors recall election. In fact this problem is so great that millions of people in California are at risk daily of receiving immediate and irreparable damage. Which gives us grounds for immediate injunctive relief. To stop the California state judges and courts from conducting any further legal actions in any of our courts. Until justice is restored in our courts, our temples of justice purified and these evil doers brought to justice.

You can prevent a complete destruction of the remaining credibility of our legal system. The mandatory shut down of our courts. By we the people through federal injunctive relief. By doing your duty and prosecuting these evil judges in Ventura County and elsewhere.

Who are willfully obstructing justice and using our courts as a front for all manners of evils and criminal actives. The quickest and best solution to restore justice and the rule of law in California. Is to prosecute the judges and send them to the prisons that they so callously and gleefully sending innocent and blameless people.

I am looking forward to your response, and providing you with the indisputable evidence in these cases. Which is so comprehensive that your least experienced attorneys if they wish. Will have no problem obtaining a just conviction of these dangerous predator's. Who are criminals and traitors as the evidence is overwhelming

Sincerely Yours
